

Size: AAA (LR03) PC2400

Dimensions shown are IEC standards

Acel part number (AC01051)

Constant AAA alkaline battery
pk=10

Features and benefits

Reliable Performance

- Excellent resistance to corrosion
- Designed to meet all major quality, safety and environmental standards:
 - o Safety: IEC 60086-5
 - o ANSI C 18.1M, Part-2
 - o EU Battery Directive
 - o Quality: ISO 14001 and 9001, Duracell World Class Continuous Improvement Program

Technical Specification

ELECTRICAL CHARACTERISTICS

Nominal capacity (25mA Cont., .8V cut-off)	1,222 mAh
Typical Voltage (at + 20 °C)	1.5 V
AC Impedance @ 1kHz	155 mΩ

PHYSICAL CHARACTERISTICS

Typical weight	11.4 g (0.4 oz)
Typical volume	3.5 cm ³ (0.2 in ³)
Terminals	Flat

OPERATING & STORAGE CONDITIONS

Operating temperature range	-20°C to 54°C (-4°F to 130°F)
Recommended Storage (storage area should be clean, cool, dry and ventilated)	5°C to 30°C (41°F to 86° F)

10-AC01051-2024-V1
