

Acel part number AC0471

Nail-Proof Stubby WoodBeaver

The compact stubby design is perfect for inter-joist drilling, working in tight spaces and for users with larger drilling machines.

Designed with all the benefits of the original WoodBeaver, the Nail-Proof also features a stronger cutting head, allowing it to provide effective drilling even after Nail Strikes.

The robust profile of the four precision ground cutting teeth provides extreme resistance to hard objects whilst the HSS cutting head increases durability in tough materials to give longer tool life.

32mm has a 7/16" shank & can't be used in impact drivers.

Four deep auger style flutes for rapid chip evacuation and faster drilling speeds.

Four precision ground cutting teeth for extreme drilling comfort and balance.

Robust cutting tooth profile provides extreme resistance to hard objects such as nails.

High Speed Steel cutting head increases durability in tough materials for longer life.

Technical Specification

32mm Diameter	80mm Working Length
	120mm Overall Length
