

For continuity, insulation and loop testing of 3 phase circuits. Just fit your own industrial plug.

Aids fast, safe and more consistent electrical testing of three phase systems.

Comes with flying lead, so you can add appropriate plug.

Allows you to connect to the circuits under test for both live and dead testing required by 18th Edition.

Accepts universal 4mm test lead connections (better than using croc clips or probes).

Can facilitate voltage connections when hooking up a power quality meter.

Connections are marked with lettering and old/new colour references.

[illegible]
