

Technical Specification

Acel part number AC0583

Professional Multifunction

NEW EVSE Testing Capabilities, Full Auto Sequence using the AC0584

NEW 6mA DC Ramp Test for EVSE Charging Stations

TFT Large Colour Display 320 x 240 Pixels

Phase to Phase Loop Testing

TRMS For Accurate Measurements on Noisy and Distorted Circuits

Full Help Schematic Display

Built In Fuse Characteristics

Measurement of Continuity 200mA

Supplied with Neck Strap and Harness

Displays both L-N, L-PE with PFC & PSC On One Loop Test

Phase Sequence Measurement

Insulation Test 50V,100V,250V,500V and 1000V

RCD Testing up to 1A or 10A with Optional Adapter

Auto RCD Test, One Trip to the Board

RCD Type A, AC and B, General, Selective and Time Delayed

Auto Test, Loop And RCD Auto Test in One Test

Comes with AII Leads, Hard Carry Case and Software

12 Months Calibration Certificate

Section-10-AC0583 2021 V19
