

### AC3314

### 20A NS Fuse

550V AC 80kA / 250V DC 40kA, Overall length, H:61mm / Diameter: 13.5mm (Size F1)

#### Technical Specification

|                                                  |                                                      |
|--------------------------------------------------|------------------------------------------------------|
| Voltage (AC/DC)                                  | 550/250                                              |
| Rating                                           | 20A                                                  |
| Breaking Capacity                                | 40 kA                                                |
| Dimensions (mm)                                  | 35.5 (A) 13.5 (B) 61 (D) 12.7 (E)<br>0.8 (F) 3.5 (N) |
| Pre Arcing $I^2 T$ (AMPERE <sup>2</sup> SECONDS) | 250                                                  |
| Total $I^2 T$ (AMPERE <sup>2</sup> SECONDS)      | 1250                                                 |
| Watt Loss                                        | 1.7                                                  |
| Curve Type                                       | gG                                                   |
|                                                  |                                                      |
|                                                  |                                                      |
|                                                  |                                                      |
|                                                  |                                                      |
|                                                  |                                                      |
|                                                  |                                                      |
|                                                  |                                                      |
