

AC33766

IP20 Steel Enclosure c/w Main Switch, MCB and SRG1VCU

Retrofit Surge Protection Units

Ideal for installation where it is not possible to accommodate a suitable surge arrester directly within the existing consumer unit.

Provides protection against the effects of transient over voltages.

Technical Specification

Description: cw Main Sw, MCB & SRGT2CU

Dimensions: 250x135x87mm (HWD)

Frequency: 50-60Hz

Manufacturing Material: Steel

Phase: 1

Protection Degree: IP2X

Protection: MCB

Rated Operating Voltage: 230V~

Surge Protective Class: Type 2-3

3-AC33766-2021-V1
