

Emergency light remote control

The AC5697 is used in conjunction with compatible emergency lighting fittings. This unique testing feature allows both the monthly 5 second & annual 3-hour tests to be carried out without disrupting local lighting circuits. One AC5697 remote control can be used to test all the compatible lights installed on the premises.

Compatible emergency Lights

- AC5679 - Bulkhead
- AC5681 - Bulkhead
- AC5696 - IP65 twin spot
- AC5714 - Exit sign
- AC5715 - Exit sign
- AC5716 - Surface Downlight
- AC5725 - Decorative bulkhead
- AC5726 - Decorative bulkhead with Microwave

Remote Control Option

Using the AC5697 optional remote control gives the following testing options.

The AC5697 is capable of testing any number of compatible emergency lights.

Allows both monthly 5 second & annual 3-hour test.

Fittings can be tested from up to 7m

No need to fit key switches

Fitting will show a red LED if a fault is detected or Green for a pass

No need to wait for the test to complete, the indicators will remain lit until the next test or any fault is corrected.

Press once for 5 second monthly test

Press twice for 3 hour yearly test

LED confirms pass/fail status
