

AC66198

50 x 25mm Screws and Washers

Our thermal insulation board reinforcement fixings are designed for use with our 10mm and 6mm concrete faced insulation boards.

The screws and washers will ensure a secure fixing of our insulation boards when installing them directly on to timber sub floors.

Technical Specification

Dimensions	25mm screw and 35mm diameter washers
Coverage	1 pack is enough for 2 to 3 boards

- Washer design prevents screws pulling through insulation boards
- Light weight galvanised washers
